Reports to	Workshop Operations Manager	**Location**	On site in Dubai, at the pilot workshops
Employment	Full time, shift-based including evenings and weekends, UAE employment contract	**Start**	Ahead of the first pilot workshop opening (about 9 months after our Seed round closes)

About Auxionetics

Auxionetics Artificial Intelligence L.L.C S.O.C is an IP-led robotics company in Dubai. Our patent-pending technology aims to let people and robots work safely side by side, and its first use will be the Smart Robot Mechanic: a car-service bay in which two collaborative arms will take on the repetitive, physically demanding work while a skilled technician stays in charge of every job. Six US patent applications and an international (PCT) application have been filed. We will run our own workshops in Dubai and license our Human-Robot Collaboration platform once it runs reliably in daily operation.

Why this role matters

A bay can only be as fast as the parts that reach it. You will keep oil, filters, tires and parts ready for every job, keep the stores accurate, and make sure used oil and waste leave the site safely and on record.

What you will own

- **Stock.** Receive, store and issue oil, filters, tires and parts; keep stock records accurate.
- **Job kits.** Prepare the right parts and consumables for each booked job.
- **Reordering.** Monitor stock levels and raise reorders to plan, with Procurement.
- **Tires.** Handle and store tires safely, by size and condition.
- **Waste.** Manage used oil, filters and tires for collection by licensed contractors, with records.
- **Housekeeping.** Keep the stores clean, safe and organized.

Minimum qualifications

- 2+ years in stores, warehouse or parts handling, ideally automotive.
- Accurate record keeping and basic computer skills.
- Safe manual handling and, where required, a forklift license.
- Clear spoken English.

Preferred qualifications

- Automotive parts or tire-shop experience.
- Hazardous-waste handling training.
- Arabic.
- A UAE driving license.

Your first year

By	What success looks like
Training	Completed stores, waste and safety training before opening.
3 months open	No job delayed by missing parts; stock records accurate at count.
12 months	Stock levels optimized and waste records complete for every collection.

How we work

- **Safety first.** Nobody enters a working bay without the right training; every job follows a documented safety procedure.
- **Measured, not claimed.** Every job is recorded, so we know what works and fix what does not.
- **One team.** Robots do the repetitive work; people stay in charge, and every voice on the shift counts.

What we offer

- A founding place in a new kind of vehicle service in Dubai, with training on robotic equipment that few workshops in the world use today.
- A competitive salary; company-paid visa, work permit and health insurance; annual leave and end-of-service gratuity under UAE law.

Conditions. Every offer is conditional on the close of our Seed round, satisfactory checks, a UAE work permit, and an agreement assigning to the company the IP created in employment.

> **How to apply.** Email your CV and a short note on your stores or parts experience to careers@auxionetics.com, quoting AUX-SITE-SD-05. Shortlisted candidates will have an interview and a short practical exercise. CVs are used only for recruitment and deleted within 12 months unless the candidate joins us. **Auxionetics is an equal-opportunity employer** and selects on merit alone.
